WordPress Front-End Designer — Grewon Technologies

January 2025 – Present

- Design and build responsive WordPress pages using Elementor, Gutenberg, and other page builders for client projects across multiple industries.
- Convert Figma designs into fully responsive WordPress pages, tested and optimized across desktop, tablet, and mobile breakpoints.
- Improve website speed and usability and apply on-page SEO best practices, contributing to [add metric, e.g., X% faster load times or improved Core Web Vitals scores].
- Maintain and update live production websites, including ongoing work on AOM.org, StockBazar, SnapTikInsta, and SnapTikSaver (see Selected Projects below).

WordPress Front-End Designer — Atmiya Infosoft

July 2024 – December 2024

- Built responsive WordPress pages using Elementor and Gutenberg for client websites.
- Converted Figma designs into functional WordPress pages, improving load speed and overall usability.

Web Designer & WordPress Designer (Internship) — Goldenmace IT Solutions, Navsari

6-Month Internship

- Built and styled WordPress pages while learning real-world client workflows and team collaboration practices.
- Contributed to KiviCare, a clinic and patient management platform on WordPress with online appointment booking and telemedicine features, using HTML5, CSS3, Bootstrap, and SCSS.

SELECTED PROJECTS

Academy of Management — aom.org

WordPress, Gutenberg, Full Site Editing, Child Theme, WP Engine

Website for the world's leading association for management scholars, serving 21,000+ members across 120+ countries. Built with Gutenberg blocks and Full Site Editing on a custom child theme, hosted on WP Engine.

The Driving Licence — thedrivinglicence.com

WordPress, SEO, JSON, Multi-Country Content

Theory test preparation platform covering 40+ countries, including free practice tests, road sign guides, and driving authority office information, fully SEO-optimized.

StockBazar — stockbazar.app

Scraper, JSON, Database, Dynamic Tables

Global economic calendar and market alerts platform; built a data pipeline where a scraper exports JSON that is automatically imported into the database and displayed in dynamic tables.

SnapTikInsta — snaptikinsta.com

WordPress, Elementor, Polylang, Multi-Language

All-in-one social media video downloader (TikTok, Instagram, Facebook, and more) with no watermark, supporting 12+ languages.

SnapTikSaver — snaptiksaver.com

WordPress, SEO, Polylang, Multi-Language

TikTok video downloader without watermark, including MP3 conversion, slideshow, and story-saving tools, with SEO-friendly multi-language content.
